Description

Au pas 6, que j'ai prévu de réécrire comme ceci :

Dans les champs associés à "Variables eole (zephir.eol)", sélectionner "time_zone (1 valeurs)", saisir la valeur "Indian/Reunion" et cliquer sur le bouton Changer la valeur

après avoir demandé l'application de la valeur sur le groupe de serveur, j'obtiens l'erreur suivante :

Erreur provenant du backend XML-RPC
Détail : Erreur lors de l'application des paramètres

dans /var/log/rsyslog/local/zephir_backend/zephir_backend.alert.log, je constate :

#6 - 08/27/2015 03:24 PM - Karim Ayari

j'ai constaté le même problème en voulant modifier la conf d'un serveur.

pour l'instant j'en ai trouvé 2 dans ce cas, du coup on a plus la possibilité de modifier via Zéphir
