

## eCDL - Tâche #13324

Scénario # 13012 (Terminé (Sprint)): Exécuter les tests eCDL 2.5.1

### Erreur récurrente dans Winbind

10/02/2015 08:51 AM - Emmanuel IHRY

<b>Status:</b>	Fermé	<b>Start date:</b>	09/21/2015
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assigned To:</b>	Emmanuel IHRY	<b>% Done:</b>	100%
<b>Target version:</b>	sprint 2015 39-41 - Equipe PNE-SR	<b>Estimated time:</b>	2.00 hours
		<b>Spent time:</b>	6.00 hours

#### Description

Lors du lancement ou lors d'un getent :

```
Attempting to find a passdb backend to match ldapsam:"ldaps://ldapsmb.ac.melanie2.i2:636" (ldapsam)
Found pdb backend ldapsam
smbldap_search_domain_info: Searching for:[(&(objectClass=sambaDomain)(sambaDomainName=TEST-PNESR))]
smbldap_search_ext: base =>
[ou=TEST-PNESR,ou=domaines,ou=Samba,ou=applications,ou=ressources,dc=equipement,dc=gouv,dc=fr], filter =>
[(&(objectClass=sambaDomain)(sambaDomainName=TEST-PNESR))], scope => [2]
The connection to the LDAP server was closed
Failed to issue the StartTLS instruction: Operations error
Connection to LDAP server failed for the 1 try!
pdb backend ldapsam:"ldaps://ldapsmb.ac.melanie2.i2:636" has a valid init
Found policy hnd0 [0000] 00 00 00 00 01 00 00 00 00 00 00 00 0D 56 14 FF .....V..
[0010] 54 0B 00 00 T...

--> ces erreurs existent peut être depuis toujours ? au bout de plusieurs tentatives en echec, cela passe !
```

#### History

##### #1 - 10/02/2015 08:52 AM - Emmanuel IHRY

- Subject changed from Erreur récurrent dans Winbind to Erreur récurrente dans Winbind

- Description updated

##### #2 - 10/02/2015 08:52 AM - Emmanuel IHRY

- Status changed from Nouveau to En cours

##### #3 - 10/06/2015 04:10 PM - Emmanuel IHRY

- Estimated time set to 2.00 h

- Remaining (hours) set to 1.0

il semble que ce problème soit résolu en indiquant :

ldap ssl = Off (à la place de = star tls)

En effet la doc indique <https://www.samba.org/samba/docs/man/manpages/smb.conf.5.html>

LDAP connections should be secured where possible. This may be done setting either this parameter to `Start_tls` or by specifying `ldaps://` in the URL argument of `passdb backend`.

The `ldap ssl` can be set to one of two values:

`Off` = Never use SSL when querying the directory.

`start_tls` = Use the LDAPv3 StartTLS extended operation (RFC2830) for communicating with the directory server.

`start_tls` parait donc redondant avec l'utilisation de `ldaps://`

--> modification à reporter vers `smb.conf` ?

#### #4 - 10/06/2015 04:10 PM - Emmanuel IHRY

- % Done changed from 0 to 80

#### #5 - 10/07/2015 08:39 AM - Emmanuel IHRY

- Status changed from *En cours* to *Fermé*

- % Done changed from 80 to 100

- Remaining (hours) changed from 1.0 to 0.0

le problème est résolu à condition de désactiver dans la configuration TLS dans EOLE, soit mettre `ldap_tls = Non`

--> pas un problème donc, mais une campagne de mise à jour des eCDL doit être faite dans le prochain sprint
