Revision 192d714e - 11/08/2006 12:45 AM - jml

Improve signup and password reset behaviour * Author: jml * Reviewer: exarkun * Fixes #1696, #1636

This branch does a few things: * Extracts the 'implicit domain' logic into `usernameFromRequest` * Changes signup to only create two `LoginMethod`s for a user * Uses the external email address to send password reset emails * Allows users to reset passwords using their unqualified domain name (e.g. 'amir', not 'amir@divmod.com'). * Improved docstrings, new docstrings * Improved test coverage.

Revision 722ad98b - 04/06/2011 12:07 PM - Joël Cuissinat

ajout des règles conteneur -> SSO (fixes #1636)
