#5 - 05/28/2020 04:49 PM - Emmanuel GARETTE

- Status changed from *En cours* to *Résolu*

Pour le diagnose, je ne reproduit pas :

```
root@sphynx:~# /usr/share/eole/diagnose/152-rvp
*** Réseau virtuel privé
.                               VPN => Aucun tunnel
.                               ARV => Ok

root@sphynx:~#
```

#6 - 06/02/2020 11:17 AM - Fabrice Barconnière

Je ferme, l'agent semble fonctionner, il génère les stats mais la page web ne s'affiche pas (cf [#30221](#)).
OK pour le diagnose, le traceback se produisait logiquement avant le portage en python3.
