

Distribution EOLE - Tâche #30429

Scénario # 30656 (Terminé (Sprint)): évolutions géomatique

eole-pgadmin : la modification du MdP du compte d'administration depuis l'ead3 ne fonctionne pas

07/07/2020 14:32 - Vincent Chavanon

Statut:	Fermé	Début:	14/10/2019
Priorité:	Normal	Echéance:	
Assigné à:	Benjamin Bohard	% réalisé:	100%
Version cible:	MTES - prestation cadoles 40 - 42	Temps estimé:	0.00 heure
		Temps passé:	0.00 heure
Description			
à la modifictaion, l'erruer "JSON.parse: unexpected character at line 1 column 1 of the JSON data" remonte			

Révisions associées

Révision b7e7d252 - 14/10/2020 16:23 - Benjamin Bohard

Add environment variable for locale and basic help strings.

- salt minion is not aware of locale while click need this information
- pgadmin-tool lacks basic help strings for interactive use.

Ref #30429

Révision adbc6f2e - 13/11/2020 08:35 - Benjamin Bohard

Add environment variable for locale and basic help strings.

- salt minion is not aware of locale while click need this information
- pgadmin-tool lacks basic help strings for interactive use.

Ref #30429

(cherry picked from commit b7e7d252e5db8a59a982b27b92691d2bafff28ce)

Historique

#1 - 16/09/2020 18:06 - Thierry Bertrand

- Tâche parente changé de #29523 à #30656

#2 - 09/10/2020 17:06 - Benjamin Bohard

Il faut vérifier le passage du mot de passe en argument à la commande pour permettre l'emploi de caractères divers.

#3 - 12/10/2020 14:04 - Benjamin Bohard

#4 - 12/10/2020 17:35 - Benjamin Bohard

La commande pgadmin-tool utilise la bibliothèque click qui a besoin d'une variable d'environnement pour savoir l'encodage.
Le problème n'est pas détecté lorsqu'on lance salt-minion-ead3 dans la console puisque le service hérite alors des variables du shell.
