

EOLE OpenNebula - Tâche #32704

Scénario # 32278 (Terminé (Sprint)): Hapy VMs: finaliser la procédure de déploiement des VMs

Implémenter la récupération des configuration avec la liste des serveur en mode "manuel"

06/07/2021 11:10 AM - Philippe Caseiro

Status:	Fermé	Start date:	05/17/2021
Priority:	Normal	Due date:	
Assigned To:	Philippe Caseiro	% Done:	0%
Target version:	Prestation Cadoles MEN 2021 23-25	Estimated time:	0.00 hour
		Spent time:	0.00 hour
Description			

Associated revisions

Revision 0af1622e - 06/08/2021 04:33 PM - Philippe Caseiro

Adding support for manual and mix mode.

User can define a "site" or a list of servers or both
This code allows us to recover configuration in all modes

ref #32704

Revision 8f98575f - 06/15/2021 10:39 AM - Philippe Caseiro

Adding "password storage option"

If user decides it, he ca store the password in an encrypted file

ref #32705

Adding get_config_from_zephir function

Get configuration from zephir and Saving it
to an encrypted file.

ref #32703

Adding support for manual and mix mode.

User can define a "site" or a list of servers or both
This code allows us to recover configuration in all modes

ref #32704

Get VM configuration from zephir
Create VM Template from appliance modele
Updating Template

ref #32706

Deploying Virtual machines

ref #32707

Adding "FILES" for boot context scripts

The goal here is to add CONTEXT scripts runned by OpenNebula during
VM boot to do some actions like enregistrement_zephir or "instance".

Scripts must be placed in the provisioning dir to be added to the

models and runned on boot.

ref #32723

Adding firstboot flag script to provisionning scripts

Adding support for init scripts on boot

First draft of enregistrement_zephir
Manage zephir ca certificate issue

ref #32723

Adding support for VM index
