

Distribution EOLE - Tâche #33959

Scénario # 33781 (Terminé (Sprint)): Traitement express MEN (06-12)

Revoir le packaging de zephir-client pour EOLE 2.9

24/03/2022 15:49 - Joël Cuissinat

Statut:	Fermé	Début:	24/03/2022
Priorité:	Normal	Echéance:	
Assigné à:	Joël Cuissinat	% réalisé:	100%
Version cible:	sprint 2022 06-12 Equipe MENSUR	Temps estimé:	0.00 heure
		Temps passé:	0.00 heure
Description			
http://castor.eole.lan:9998/job/20761			
<pre>dh_missing: warning: etc/cron.d/z_stats exists in debian/tmp but is not installed to anywhere dh_missing: warning: etc/logrotate.d/zephir exists in debian/tmp but is not installed to anywhere (related file: "debian/tmp/usr/share/zephir") dh_missing: warning: etc/update-motd.d/95-upgrade-messages exists in debian/tmp but is not installed to anywhere (related file: "motd/95-upgrade-messages") dh_missing: warning: usr/bin/enregistrement_zephir exists in debian/tmp but is not installed to an ywhere (related file: "bin/enregistrement_zephir") dh_missing: warning: usr/bin/synchro_zephir exists in debian/tmp but is not installed to anywhere (related file: "bin/synchro_zephir") dh_missing: warning: usr/share/eole/creole/dicos/99_zephir-stats.xml exists in debian/tmp but is n ot installed to anywhere (related file: "dicos/99_zephir-stats.xml") dh_missing: warning: usr/share/eole/ead2/backend/actions/cmd_update_zephir.py exists in debian/tmp but is not installed to anywhere dh_missing: warning: usr/share/eole/ead2/backend/config/actions/actions_zstats.cfg exists in debia n/tmp but is not installed to anywhere dh_missing: warning: usr/share/eole/ead2/backend/config/cmds/zstats.cmd exists in debian/tmp but i s not installed to anywhere dh_missing: warning: usr/share/eole/ead2/backend/config/perms/perm_zstats.ini exists in debian/tmp but is not installed to anywhere dh_missing: warning: usr/share/eole/posttemplate/00-upgrade-messages exists in debian/tmp but is n ot installed to anywhere (related file: "posttemplate/00-upgrade-messages") dh_missing: warning: usr/share/eole/pretemplate/01-uucp exists in debian/tmp but is not installed to anywhere (related file: "pretemplate/01-uucp") dh_missing: error: missing files, aborting</pre>			
<p>While detecting missing files, dh_missing noted some files with a similar name to those that were missing. This error /might/ be resolved by replacing references to the missing files with the similarly named ones that dh_missing found - assuming the content is identical.</p>			
<p>As an example, you might want to replace:</p> <pre>* debian/tmp/usr/share/zephir</pre> <p>with:</p> <pre>* etc/logrotate.d/zephir</pre> <p>in a file in debian/ or as argument to one of the dh_* tools called from debian/rules. (Note it is possible the paths are not used verbatim but instead directories containing or globs matching them are used instead)</p>			
<p>Alternatively, add the missing file to debian/not-installed if it cannot and should not be used.</p>			
<p>The following debhelper tools have reported what they installed (with files per package)</p> <pre>* dh_install: zephir-client (8), zephir-stats (4) * dh_installdocs: zephir-client (0), zephir-stats (0) * dh_installexamples: zephir-client (0), zephir-stats (0) * dh_installinfo: zephir-client (0), zephir-stats (0) * dh_installman: zephir-client (0), zephir-stats (0)</pre>			

```
If the missing files are installed by another tool, please file a bug against it.
When filing the report, if the tool is not part of debhelper itself, please reference the
"Logging helpers and dh_missing" section from the "PROGRAMMING" guide for debhelper (10.6.3+).
(in the debhelper package: /usr/share/doc/debhelper/PROGRAMMING.gz)
Be sure to test with dpkg-buildpackage -A/-B as the results may vary when only a subset is bui
lt
If the omission is intentional or no other helper can take care of this consider adding the
paths to debian/not-installed.
make: *** [debian/rules:8: binary-indep] Error 25
