Catégorie:		Temps estimé:	0.00 heure
Version cible:		Temps passé:	0.00 heure
Distribution:	EOLE 2.3		
Description			
wpkg manage ne fonctionne pas sur horus			
je cherche à faire fonctionner wpkg manage sur un horus sans ESU, wpkg fonctionne correctement, les applis s'installent et se désinstallent correctement mais je souhaite pouvoir gérer les packages et les hosts depuis wpkg-manage, mais lorsque je le lance il m'indique de consulter le fichier wpkg-manage.exe.log,			
j'ai suivi la doc d'install http://eole.orion.education.fr/oldwiki/index.php/Wpkg			
je joins le fichier.

Historique

#1 - 25/04/2013 16:15 - Joël Cuissinat

- *Projet changé de Distribution EOLE à wpkg-manage*

#2 - 16/06/2013 19:25 - Christophe Dezé

pouvez vous me dire si la version 1.17 corrige le soucis
cordialement

#3 - 27/11/2019 14:39 - Joël Cuissinat

- *Statut changé de Nouveau à Classée sans suite*
